01 WE GROW TOGETHER. LIKE THE PINES IN OUR VALLEY.

Our origins are humble, like a young pine tree in a forest in Gipuzkoa. But roots, when strong, don't only support but also unite. We are a family that has grown with the valley, taking on workers from the village, the surrounding area and beyond, because a forest is diverse and with each trunk the whole becomes stronger.

Here, men and women work as equals, side by side, both in the factory and in management. Because we grow not only in size, but also in values. Together, we look towards the horizon with the certainty that what we build today will nurture the generations of tomorrow.

WOOD WITH A CONSCIENCE, FOREST WITH A FUTURE

Without the forest, we would not be who we are. It gives us the air we breathe and the wood we cut down, but it also teaches us about respect. Every step of our process, from felling a pine tree to returning it to the earth in an infinite cycle, is done with care, as if caring for a legacy. Because we don't take away; we collaborate. Our circular economy is not just a method: it is a tribute to the earth that sustains us. And with each innovation, we move closer to that ideal: leaving the forest better than we found it.

ENVIRONMENTALLY FRIENDLY PRODUCTS

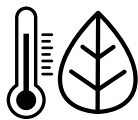

ECOLABEL certified: materials and processes designed to minimise environmental impact throughout the product life-cycle. Because responsible design is indeed design that takes care of what it loves.

EU Ecolabel: ES-EU / 049 / 0001

BIOMASS

We practice energy self-sufficiency, generating heat by burning biomass from the waste we generate in our manufacturing processes.

CARBON FOOTPRINT

At Astigarraga Kit Line, we measure our carbon footprint to ensure that every piece we create reflects our commitment to the planet.

WE ARE COMMITTED TO RECYCLING

Our packaging is part of the change: 100% recycled cardboard and plastics with 70% reused material. Less waste, more future.

03

PROXIMITY KNOWS NO BORDERS

The wind carries the seeds to faraway places, and we, like it, go where we are needed. With the warmth of someone who is speaking while looking into your eyes, and the agility of a river that overcomes obstacles. We are people of our word, as firm as the tallest pine tree in the forest, and we only know how to show it with actions. Logistics, care or solutions. Tell us what you need, wherever you are, because where there is commitment, distances don't matter.

04 FROM HOME TO PUBLIC AND PROFESSIONAL SPACES

Dinamic furniture in a physiotherapy centre

Our catalogue is not an inventory. It is a living forest. Each product is the result of years of learning, of rigorous testing - like pine trees that withstand storms - to exceed the most demanding standards. What was once furniture for homes, is now flourishing in public and business spaces. Because we don't settle: we innovate like nature, in which two leaves are never the same. And in every new idea, a common purpose is present: to create something of quality that only time and the passion for improvement deliver.

Dinamic Cubes in an architectural studio

Gala shelving in food and gourmet shops

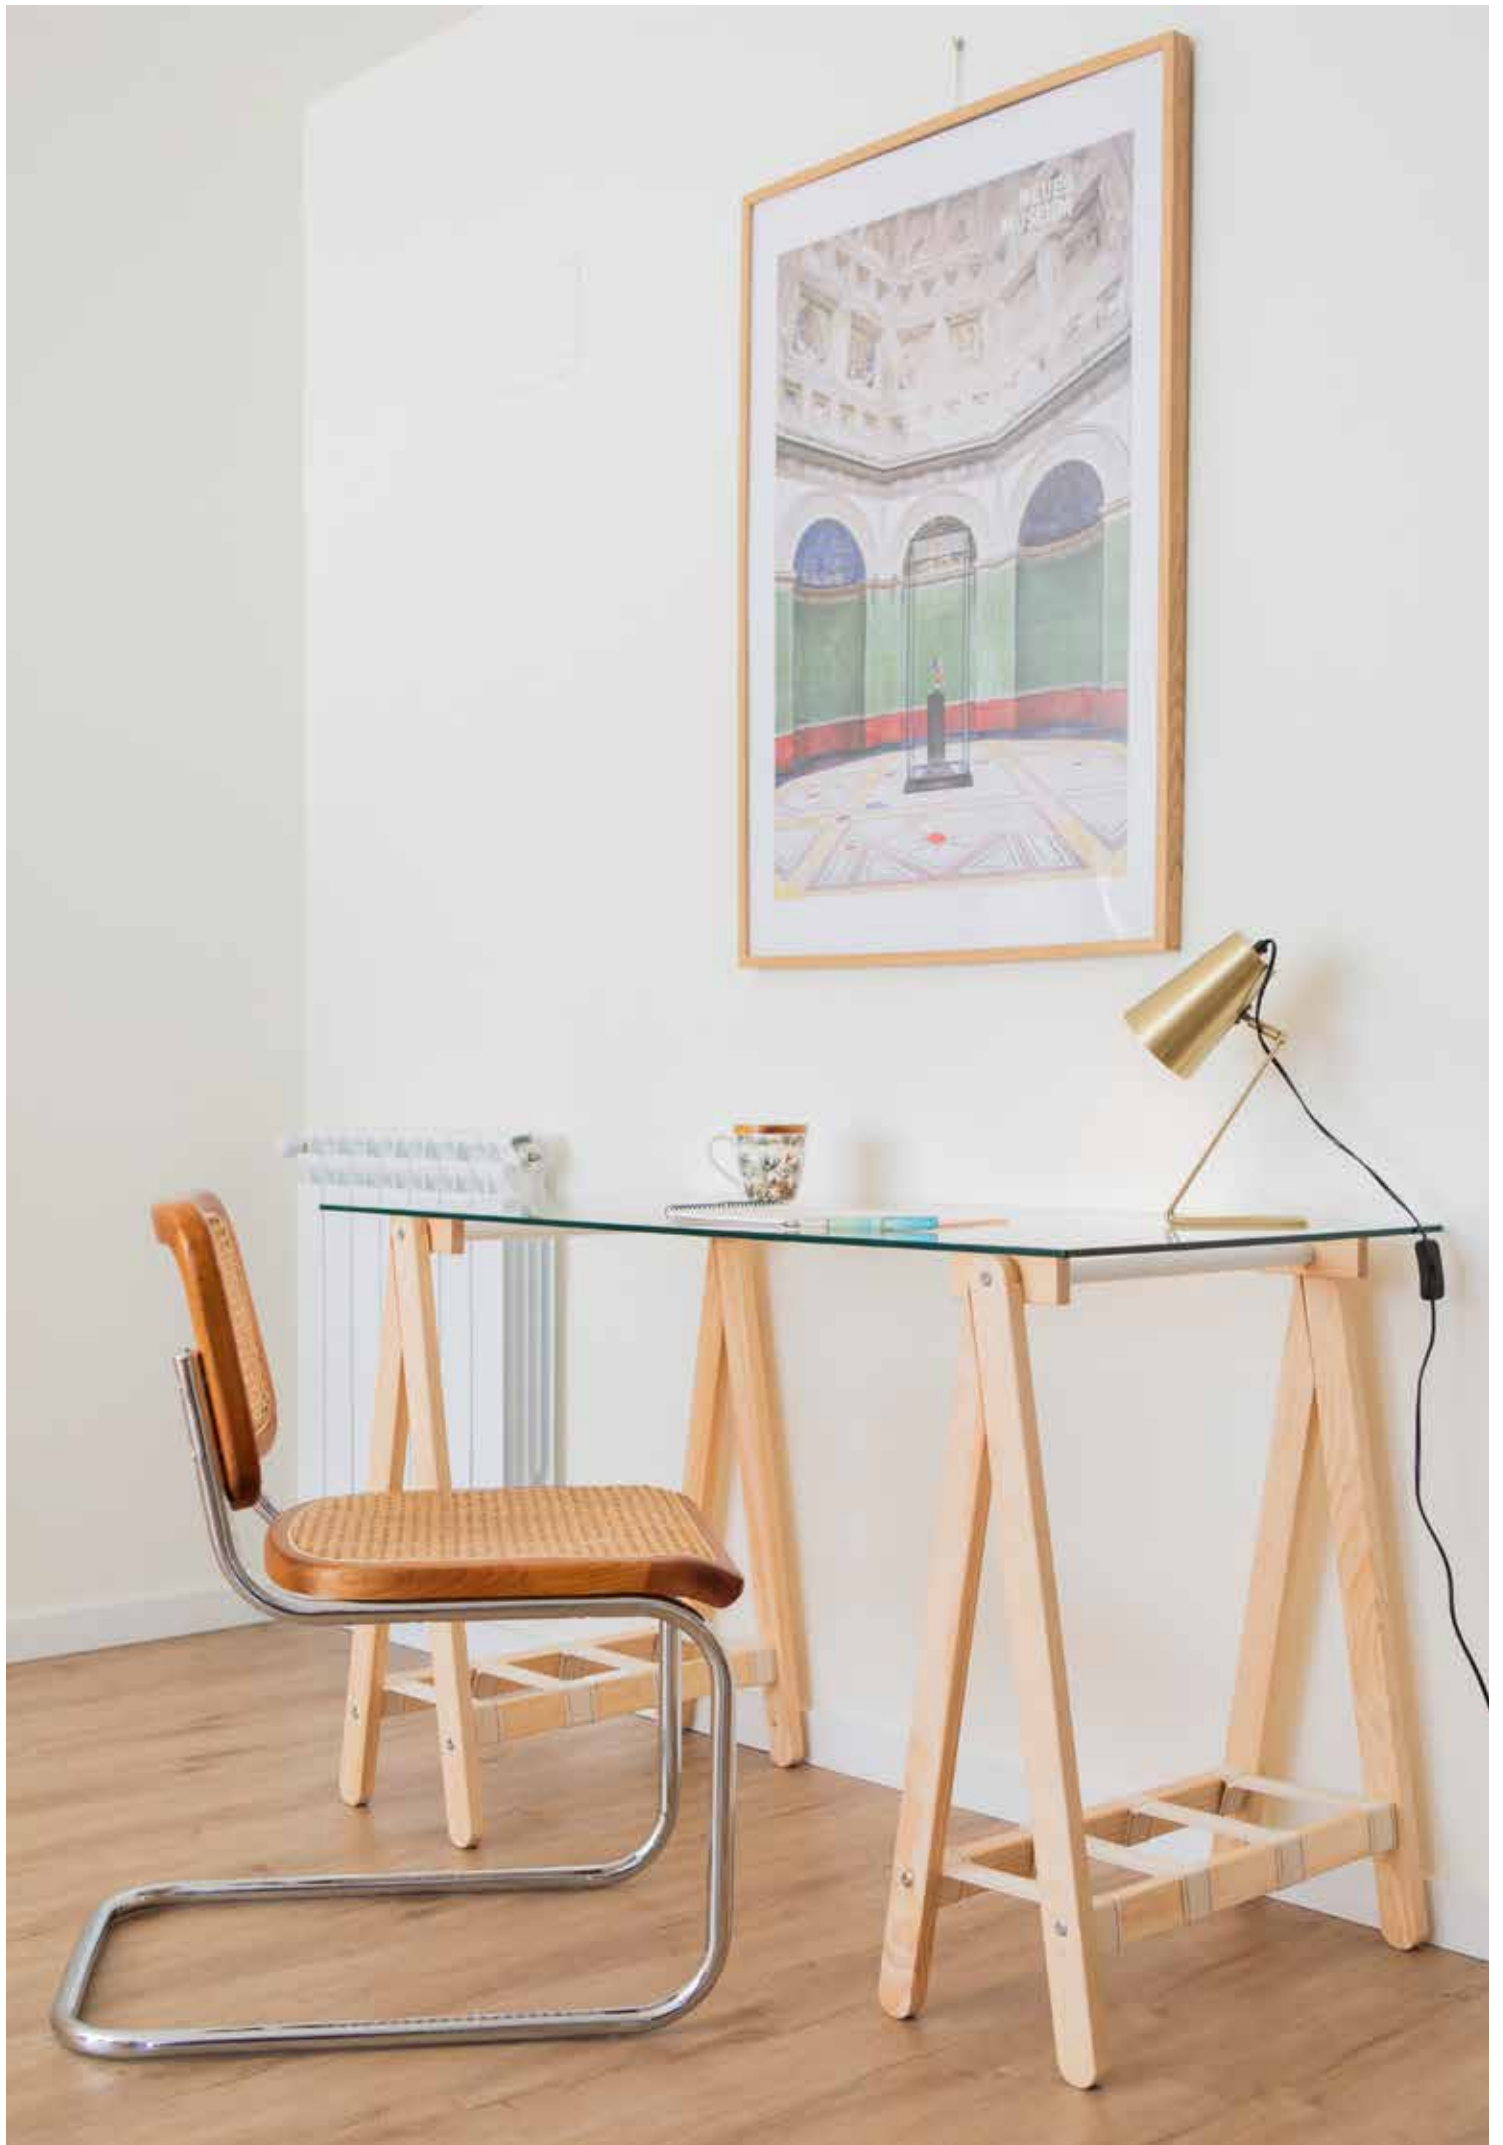

FOR SCHOOLS / RESTAURANTS / LIBRARIES / BARS / SHOPS / HOTELS... **ANY SPACE WHICH IS OPEN TO THE PUBLIC**

The Gala and Dinamic ranges meet your expectations and also comply with standard "UNE-EN 16121:2023, a standard for non-domestic-use storage furniture", enabling the ranges' intensive use in a professional environment.

TRESTLES AND BOARDS

Trestles are much more than a support: they are the heart of a thousand possibilities. Made from sudyed able pine wood, these living companions are suitable for any use. A painting workshop in the garden? An improvised table for meetings with friends? Or maybe a display for a shop? Lightweight

and sturdy, our easels and boards are the perfect partner for shaping your creativity. And because each project is unique, we offer multiple models. All with the same essence as always: certified sudyed able wood, a warm touch, and that timeless character that only authenticity possesses.

WORK TRESTLES

JUST LIKE EACH TASK REQUIRES A SPECIFIC TOOL,
EACH PROFESSIONAL NEEDS A SPECIAL EASEL. THIS
IS THE REASON FOR THE VARIETY IN THE DESIGNS OF
OUR EASELS - OUR SPECIALITY.

STORAGE FURNITURE

You know that calm feeling you get when everything falls into place? This we understand at Astigarraga Kit Line. Our storage furniture not only helps to organise space, but also brings peace of mind. A shoe rack, chest of drawers, dresser, sideboard and modules in sturdy pine wood that transform the thought “where

did I leave that?” into a sigh of relief. Perfect for putting toys away, displaying favourite books or storing clothes in style. We offer solutions designed for every corner. All designed to make tidying up simple and even pleasant. Because an uncluttered home, workshop or shop means an uncluttered brain.

aura

new

THE ESSENCE OF SIMPLICITY

The Aura collection is born from the encounter between the nobility of wood and the delicacy of hand-woven raffia. Each piece is designed to convey balance, lightness and authenticity, combining natural materials with a contemporary and timeless design. The Aura collection consists of a wardrobe, a shoe rack, a chest of drawers, a sideboard and a bedside table designed with natural raffia.

The raffia, laid with handcrafted care, adds texture and visual warmth, while the clean lines and quality finishes of the natural solid wood give shape to functional and elegant furniture that exudes serenity.

Aura is more than a collection; it is a sensation. A way of inhabiting space with calmness, of choosing simplicity without renouncing anything special, of creating atmospheres that invite rest and social bonding.

vita

new

LIVING WOOD. DESIGN WITH SOUL

Inspired by the timeless style of La Dolce Vita, each piece in this collection reflects the essence of life in its truest form. With fine finishes and serene shapes, each piece invites you to live in the present with pleasure, ease and simplicity. The Vita collection consists of a wardrobe, a shoe rack, a chest of drawers, a sideboard and a bedside table designed with attention to detail.

Solid natural wood, the essence of this collection, brings a unique character to the furniture through its grain and vivid textures. And the wooden handles blend naturally into the design, harmoniously accompanying the lines of the furniture.

Vita is a way of living in time. Life happens in the details, and the spaces we choose can transform daily life into something memorable.

FUNCTIONAL STORAGE FURNITURE

Beyond its natural charm, this studied able pine furniture has a clear mission: to keep your home tidy without compromising on design. Because what good is a nice piece of furniture if it doesn't make your life easier? Aesthetics and functionality go hand in hand, creating pieces that not only brighten up spaces but that

also make them more practical and welcoming. Drawers that glide smoothly, shelves that make the most of every nook and cranny and structures designed for everyday use. Because true luxury is not in what you see, but in what you experience: a space where everything flows and every object has its place.

NOVA

NOVA IS LIKE PINE UNDER THE SUN: IT ADAPTS, GROWS AND TRANSFORMS.

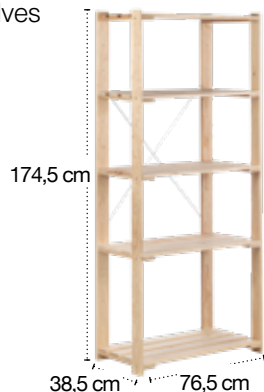

Do you need a practical wardrobe, a cool pantry or a magical children's dressing room? This collection of shelving, cabinets and accessories blends together to create spaces with a soul of their own. Because households don't stand still, neither does NOVA.

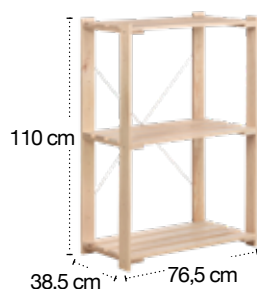

PLAY, COMBINE, TRANSFORM.

One day it is the refuge where your glass jars live in the kitchen, the next, the ordered chaos of toys or the guardian of those seasonal clothes that you never know where to keep. NOVA is wood with ingenuity: resistant, functional and full of possibilities.
